

ENGINEERING

For immediate release – November 27, 2011

8:00 am

The flood advisory for the Beach Grove and Boundary Bay neighbourhoods of Tsawwassen has been lifted. In addition, the storm advisory has also been lifted, as a result of diminishing winds and rain.

The winds did not reach maximum forecasted speeds and even though an extreme high tide event occurred, it did not result in flooding.

The Corporation of Delta's Emergency Operations Centre (EOC) has been closed, as the event has concluded.

Engineering operations staff will continue to monitor tide levels and weather conditions.

Mayor Lois E. Jackson extends her thanks to Delta Fire, Police and Engineering crews for taking the necessary response measures.
