

**OFFICE OF THE MAYOR**

---

**For immediate release – December 5, 2011**

The Corporation of Delta has launched its own Facebook, Twitter and YouTube pages today. They can be accessed from Delta’s website or directly through the social media sites.

Delta’s social media pages will be used to connect the citizens of Delta with municipal services, events, programs and contests in our Parks department, traffic alerts, emergency weather notifications, media releases and more, right from your computer or mobile device.

“These platforms provide a new way for us, as your local government, to connect with Delta residents,” said Mayor Lois E. Jackson. “Embracing these technologies provides us with opportunities to listen to, inform, and engage our citizens.”

Start connecting to Delta by “Liking” our Facebook page and following us on Twitter!

Visit Delta’s social media sites at:
